Feminisms New Age:

Feminism's New Age Karlyn Crowley, 2011-06-01 Finalist for the 2011 ForeWord Book of the Year in the Women's Issues Category Crystals Reiki Tarot Goddess worship why do these New Age tokens and practices capture the imagination of so many women How has New Age culture become even more appealing than feminism And are the two mutually exclusive By examining New Age practices from macrobiotics to goddess worship to Native rituals *Feminism's New Age Gender Appropriation and the Afterlife of Essentialism* seeks to answer these questions by examining white women's participation in this hugely popular spiritual movement While most feminist approaches to the New Age phenomenon have simply dismissed its adherents for their politically problematic racial appropriation practices Karyln Crowley looks honestly at the political shortcomings of New Age beliefs and practices while simultaneously reckoning with the affective political and cultural motivations which have prompted New Age women's individual and collective spiritualities New Age spirituality is in fact the dynamic outgrowth of a long standing tradition of women's social and political power expressed through religious writings art and public discourse and is key to understanding contemporary women's history and religion's role in modern American culture alike Crowley offers a new and provocative assessment of the significance of the New Age movement seen through a feminist and critical race studies lens

New Age and Armageddon Monica Sjöö, 1992 **Science in the New Age** David J. Hess, 1993 In *Science in the New Age* David Hess explores ideologies of the paranormal in the United States He offers a map of the labyrinth of views put forward by parapsychologists and skeptical debunkers spirit channelers and crystal healers Hollywood poltergeist scripts and prophets of the New Age Adopting a cultural perspective Hess moves beyond the question of who is right or wrong to the cultural politics of how each group constructs its own boundaries of true and false knowledge Hess begins by looking at each group's unique version of knowledge science and religion and at its story about the other groups Comparing the various discourses texts writers and groups as cultures he shows how skeptics parapsychologists and New Agers may disagree vehemently with each other but end up sharing many rhetorical strategies metaphors models values and cultural categories Furthermore he argues their shared paraculture has a great deal in common with the larger culture of the United States The dialogue on the paranormal Hess concludes has as much to do with gender power and cultural values as it does with spirits extrasensory perception and crystal healing

Feminism and the Politics of Resilience Angela McRobbie, 2020-04-20 In this short and provocative book cultural studies scholar Angela McRobbie develops a much needed feminist account of neoliberalism Highlighting the ways in which popular culture and the media actively produce and sustain the cultural imaginary for social polarization she shows how there is substantial pressure on women not just to be employed but to prioritize working life She fiercely challenges the media gatekeepers who shape contemporary womanhood by means of exposure and public shaming and pays particular attention to the endemic nature of anti welfarism as it is addressed to women thereby reducing the scope for feminist solidarity In this theoretically rich and

deep analysis of current cultural processes McRobbie introduces a series of concepts including visual media governmentality and the urging of women into work as contraceptive employment Foregrounding a triage of ideas as the perfect imperfect resilience McRobbie conveys some of the key means by which consumer capitalism attempts to manage the threats posed by the new feminisms She proposes that resilience emerges as a compromise as hard edged neoliberalism proffers the option of a return to liberal feminism A lively and devastating critique *Feminism and the Politics of Resilience* offers a much needed wake up call It is essential reading for students and scholars of cultural studies media sociology and women s and gender studies

Secular Societies, Spiritual Selves? Anna Fedele, Kim E. Knibbe, 2020-05-17 *Secular Societies Spiritual Selves* is the first volume to address the gendered intersections of religion spirituality and the secular through an ethnographic approach The book examines how spirituality has emerged as a relatively silent category with which people often signal that they are looking for a way to navigate between the categories of the religious and the secular and considers how this is related to gendered ways of being and relating Using a lived religion approach the contributors analyse the intersections between spirituality religion and secularism in different geographical areas ranging from the Netherlands Portugal and Italy to Canada the United States and Mexico The chapters explore the spiritual experiences of women and their struggle for a more gender equal way of approaching the divine as well as the experience of men and of those who challenge binary sexual identities advocating for a queer spirituality This volume will be of interest to anthropologists and sociologists as well as scholars in other disciplines who seek to understand the role of spirituality in creating the complex gendered dynamics of modern societies

Ethnographies of Conferences and Trade Fairs Hege Høyer Leivestad, Anette Nyqvist, 2017-06-21 This anthology is an attempt to make sense of conferences and trade fairs as phenomena in contemporary society The authors describe how these large scale professional gatherings have become key sites for making and negotiating both industries and individual professions In fact during the past few decades conferences and trade fairs have become a significant global industry in their own right The editors assert that large scale professional gatherings are remarkable events that require deeper analysis and scholarly attention

Feminisms, 1988 **Rethinking Women's and Gender Studies Volume 2** Catherine M. Orr, Ann Braithwaite, 2023-11-23 The second volume of *Rethinking Women s and Gender Studies* addresses the complexities and inherent paradoxes within the expansive knowledge project known as Women s and Gender Studies for audiences both inside and adjacent to the field Each of the volume s chapters identifies and critically examines a key term that circulates in this field exploring how the term has come to be understood and mobilized within its everyday narratives and practices In constructing provocative genealogies for their terms authors explicate the roles that this language and the narratives attached to it play in producing and limiting possible versions of the field The ongoing aim of *Rethinking Women s and Gender Studies* both in the original volume and this entirely new extension is to trace and expose important paradoxes ironies and contradictions embedded in the field from its high theory to its casual conversations that

rely on these terms Forging collective conversation and intellectual community from its thoughtful and critical lines of inquiry the second volume of *Rethinking Women's and Gender Studies* remains bracingly original and full of fresh insight It provides a perfect complement for Feminist Theory Senior Capstone and introductory graduate level courses offered in Women's and Gender Studies and related fields

Seeing Nature Through Gender Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender *Seeing Nature through Gender* here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd's masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred bunnies Others are dead serious as in a chilling portrait of how endocrine disruptors are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history *Seeing Nature through Gender* bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet

States led war on terror to the women of Egypt's Arab Spring Uprising to Afghani poetry as a means to resist state sanctioned patriarchal control case examples are used to highlight the pervasive and enduring problem of state perpetrated violence against women The exploration of topics that have not previously been addressed in the criminological literature such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state sanctioned patriarchal status quo makes *State Crime Women and Gender* a must read for students and scholars engaged in the study of state crime victimology and feminist criminology
