The Translational Design of Universities, 2019-08-12 Whilst schools are transforming their physical and virtual environments at a relatively glacial pace in most countries across the globe universities are under extreme pressure to adapt to the rapid emergence of the virtual campus Competition for students by online course providers is resulting in a rapidly emerging understanding of what the nature of the traditional campus will look like in the 21st century The blended virtual and physical technology enabled hybrid learning environments now integrate the face to face and online virtual experience synchronously and asynchronously Local branch campuses are emerging in city and town centres and international branch campuses are growing at a rapid rate There is increasing pressure at various levels i e the city the urban and the campus to create formal and informal learning spaces as well as re

purposing the library and social or third spaces Many new hybrid campus developments are not based on any form of rigorous scholarly evidence The risk is that many of these projects may fail In taking an evidence based approach this book seeks to align with the model of translational research from medical practice using a modified translational design approach The majority of the chapter material comes from the scholarly work of doctoral graduates and their dissertations This book is the second in a series on the evidence based translational design of educational institutions with the first volume focussing on schools This volume on Higher Education covers the city to the classroom and those elements in between It also explores what the future might look like as judgements are made about what works in campus planning and design in our rapidly changing virtual and physical worlds Contributors are Neda Abbasi Ronald Beckers Flavia Curvelo Magdaniel Mollie Dollinger Robert A Ellis Kenn Fisher Barry J Fraser Kobi Jacov Haina Rifca Hashimshony Leah Irving Marian Mahat Saadia Majeed Jacqueline Pizzuti Ashby Leanne Rose Munro Mahmoud Reza Saghafi Panayiotis Skordi Alejandra Torres Landa Lopez and Ji Yu **Journal of Architectural and Planning Research** ,1994 *Progressive Architecture* ,1982 **Post Occupancy Evaluation of Indoor Environmental Quality in Commercial Buildings** Sahar Abbaszadeh Fard,2006
