There are three practice papers providing 3 hours of test practice plus answers and notes for parents. These mathematics practice test papers give children the confidence of knowing the sort of questions they will experience in school tests towards the end of Key Stage 1. The papers also enable parents to assess their child's progress at school, identify strengths and weaknesses and help improve their child's confidence and ability. The first of the three papers is aimed at levels 1 & 2 while the remaining two papers are at level 3. Parents can mark their child's work using the pull out answers and mark scheme provided. The marks can then be used to assess the child's National Curriculum level.

The introduction of this first volume was intended to highlight some of the main points of the review as well as to put it into the context of questions currently of concern. The 14 chapters of the document synthesize the research on the following particular topics in mathematics education: 1 the mathematics curriculum, 2 background psychology, 3 stages of general intellectual development, 4 skills, concepts and strategies, 5 the teaching of facts and skills, 6 understanding of concepts in specific topic areas, 7 teaching methods, 8 process aspects, 9 attitudes, 10 individual differences, 11 language, 12 evaluation and assessment, 13 calculators and computers and 14 using research. A supplement has been added to take account of work published since the original review was compiled. MNS. [The Children's Buyer's Guide](#), 2005.
