**Barron's GRE** Sharon Weiner Green,Ira K. Wolf,2009-08-01 The 18th edition of Barron s GRE test preparation manual

offers prospective graduate students intensive preparation for the Graduate Record Exam as it is currently administered. Although question types on the GRE are scheduled to change substantially beginning August 1, 2011, students who opt to take the test before August 1 will find the help they're looking for in this edition. They will want to use Barron's GRE 18th edition as their test prep tool. Opening chapters of the 18th edition provide a perspective on the current exam with a GRE overview, advice on effective test-taking tactics, and a diagnostic test to help students pinpoint their strengths and weaknesses. Subsequent chapters review all GRE test areas and include practice exercises for the following topics: antonym analogy and sentence completion questions, reading comprehension, vocabulary, analytical writing, discrete quantitative questions, quantitative comparison questions, data interpretation questions, and math. The math review includes questions in arithmetic, algebra, and geometry. The manual's concluding section presents five full-length model exams that reflect recent GREs in length, question types, and degree of difficulty. All questions are answered and explained. For students who plan to take the GRE after July 31, 2011, the new 19th edition of Barron's GRE 978 0 7641 4616 9 will be available in bookstores everywhere in June 2011.

**Barron's Essential Words For The Gre** Geer, Philip, 2008-01-01      **Barron's New GRE** Sharon Weiner Green, Ira K. Wolf, 2011-07-01

The GRE Graduate Record Exam is changing substantially starting in August 2011, and Barron's is now ready with a thoroughly revised test prep manual that reflects the new exam's content. Although the GRE's Analytical Writing section remains essentially unchanged, new question types appear in both the GRE's Verbal Reasoning and Quantitative Reasoning sections, and the model tests in Barron's brand new 19th edition reflect these changes.

**Verbal Reasoning** The verbal section now includes two new sentence completion types: sentence equivalence questions for which test takers must identify two correct answers to receive credit, and text completion questions, some involving passages of several sentences and requiring test takers to fill in up to three blanks. Reading comprehension questions may now have more than one correct answer. Some reading questions will involve selecting individual sentences with passages.

**Quantitative Reasoning** As in the past, this section contains standard multiple-choice questions as well as quantitative comparison questions. There are two new question types: multiple-choice questions that have more than one correct answer choice, each of which has to be selected, and numeric entry questions, which are the only questions on the test for which no answer choices are provided.

Barron's new GRE manual offers intensive practice and review for all question types, plus a diagnostic test and two full-length model GREs with answer keys and explanations for all questions answered. The authors also present a test overview and valuable chapters on test-taking tactics.
