

ANDREW JACKSON

Jacksonian Democracy

Until Andrew Jackson, American presidents came from the educated elite. Jackson, by contrast, was a frontier general and an American Indian fighter. Jacksonian democracy maintained that all adult white males were equal. It rejected the view that only the elite could handle public affairs. It was not fully democratic, however. It believed in white man's suffrage, that is, allowing only adult white males to vote. During President Jackson's first term, he replaced many officials with political allies without regard to their qualifications. This practice was called the spoils system. Jackson's presidency was defined by two issues—nullification and the national bank.

They argued that it hurt the South economically. When Congress passed another high tariff in 1832, South Carolina called a state convention to nullify it. Nullification is the claimed right by a state to not recognize a supposedly unconstitutional federal law. This claim of states' rights, or the sovereignty of state over federal power, led to the South Carolina Nullification Crisis. Jackson threatened to use force to make South Carolina recognize federal sovereignty. With Jackson's urging, Congress lowered the tariff in 1833.

The Second Bank of the United States

Jackson thought that a national bank was dangerous. He blamed the national bank for the Panic of 1819, an economic crisis that introduced Americans to the cycle of a booming economy followed by bust, or economic depression. He also thought a national bank was unconstitutional. The Supreme Court's decision in *McCulloch v. Maryland* (1819) had ruled that a national bank was constitutional. However, Jackson believed his re-election to a second term was a call from the people to end the power of the Second Bank of the United States. Jackson withdrew federal monies from it. He deposited future government revenues into selected private
