 Jake Oresick,2017-04-14 The Schenley Experiment is the story of Pittsburgh s first public high school a social incubator in a
 largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as
 Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an
 ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its
 prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of
 investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both
 the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v
 Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to
 prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary
 superintendent Richard C Wallace s reinvigorated school Although the historic triangular building was a cornerstone of its
 North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50
 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells
 this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly
 tied to the school A memorable important work of local and educational history his book is a case study of desegregation
