

Gattaca Movie Guide

I use this film in conjunction with a unit on dystopian science fiction. It's fun to watch students as they discover parallels to more contemporary sci-fi. What makes this particular film so alluring is how close it is to our world today. In 1997, electric vehicles were futuristic dreams and there was no such thing as gene splicing.

I introduce this film by going over the science that is currently available like CRISPR. We also discuss the way in which we currently discriminate in society, particularly in work and education. This is part of a nine-week unit covering dystopian literature. The class/unit covers the historical, social, cultural shifts as the genre evolves.

After watching the film, you might decide to run a debate with the topic at the end of the movie guide or you could use it as a prompt for an argumentative essay.

I recommend reading through all the questions with students prior to viewing. It helps them anticipate what's to come.
