Holt-Butterfill, 1897 *The Transferred Life of George Eliot* Philip Davis, 2017-03-09 Reading George Eliot s work was described by one Victorian critic as like the feeling of entering the confessional in which the novelist sees and hears all the secrets of human psychology that roar which lies on the other side of silence This new biography of George Eliot goes beyond the much told story of her life It gives an account of what it means to become a novelist and to think like a novelist in particular a realist novelist for whom art exists not for art s sake but in the

exploration and service of human life It shows the formation and the workings of George Eliot s mind as it plays into her creation of some of the greatest novels of the Victorian era When at the age of 37 Marian Evans became George Eliot this change followed long mental preparation and personal suffering During this time she related her power of intelligence to her capacity for feeling discovering that her thinking and her art had to combine both That was the great ambition of her novels not to be mere pastimes or fictions but experiments in life and helps in living through the deepest account of human complexity available Philip Davis s illuminating new biography will enable you both to see through George Eliot s eyes and to feel what it is like to be seen by her in the imaginative involvement of her readers with her characters Engineering and Cement World ,1922 *Engineering World* ,1922 *The Publishers Weekly* ,1911
