Finding Unknown Angles

In the diagram below, find the angles A, B, C, and D.

1. A $90^\circ - 35^\circ = 55^\circ$
2. B $90^\circ - 47^\circ = 43^\circ$
3. C 90°
4. D $90^\circ - 63^\circ = 27^\circ$

In each of the diagrams below, find the angle labeled X.

$$X = 90^\circ - 55^\circ = 35^\circ$$

$$X = 180^\circ - 136^\circ = 44^\circ$$

The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K-12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation's schools Who benefits And how can citizens regain local self-governance in education so their children's minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies

Letters to a Young Education Reformer Frederick M. Hess, 2017-04-25 In *Letters to a Young Education Reformer* Frederick M. Hess distills knowledge from twenty-five years of working in and around school reform Inspired by his

conversations with young would be reformers who are passionate about transforming education the book offers a window into Hess s thinking about what education reform is and should be Hess writes that reform is more a matter of how one thinks about school improvement than a recital of programs and policy proposals Through his essays he explores a range of topics including Talkers and Doers The Temptations of Bureaucracy The Value in Talking with Those Who Disagree Why You Shouldn t Put Too Much Faith in Experts Philanthropy and Its Discontents The Problem with Passion Hess offers personal impressions as well as lessons from notable mistakes he s observed with the hope that readers will benefit from his frustrations and realizations As the policy landscape continues to shift Letters to a Young Education Reformer offers valuable timely insights to any young person passionate about transforming education and to not so young reformers who are inclined to reflect on their successes and failures
