The Online Teaching Survival Guide Judith V. Boettcher, Rita-Marie Conrad, 2010-05-13 The Online Teaching Survival Guide offers faculty a wide array of theory based techniques designed for online teaching and technology enhanced courses. Written by two pioneers in distance education this guidebook presents practical instructional strategies spread out over a four phase timeline that covers the lifespan of a course. The book includes information on a range of topics such as course management, social presence, community building, and assessment. Based on traditional pedagogical theory, The Online Teaching Survival Guide integrates the latest research in cognitive processing and learning outcomes. Faculty with little knowledge of educational theory and those well versed in pedagogy will find this resource essential for developing their online teaching skills. Praise for The Online Teaching Survival Guide: At a time when resources for training faculty to teach online are scarce, Judith Boettcher and Rita Marie Conrad have presented a must read for all instructors new to online teaching. By tying best practices to the natural rhythms of a course as it unfolds, instructors will know what to do when and what to expect. The book is a life raft in what can be perceived as turbulent and uncharted waters. Rena M Palloff and Keith Pratt, program directors and faculty, Teaching in the Virtual Classroom Program, Fielding Graduate University. Developed from years of experience supporting online faculty, Judith Boettcher and Rita Marie Conrad's book provides practical tips and checklists that should especially help those new to online teaching. Hit the ground running. Karen Swan Stukel, Distinguished Professor of Educational Leadership, University of Illinois Springfield. This book blends a fine synthesis of research findings with plenty of practical advice. This book should be especially valuable for faculty teaching their first or second course online. But any instructor, no matter how experienced, is likely to find valuable insights and techniques. Stephen C Ehrmann, director, Flashlight Program for the Study and Improvement of Educational Uses of Technology, vice president, The Teaching, Learning and Technology Group. *The eCoaching Continuum for Educators* Marcia Rock, 2019-09-23 In this book, eCoaching pioneer Marcia Rock draws on best practice research and decades of experience to offer a blueprint for professional development that maximizes teacher and student growth. The eCoaching Continuum for Educators provides teachers, administrators, and other school professionals a step by step guide to the four connected, coordinated components of technology enabled professional development: 1. studying theory and practice to build knowledge of specific content and pedagogy; 2. observing theory and practice to aid in the transfer of new knowledge to classroom practice; 3. one on one coaching to give teachers the feedback they need to improve classroom practice; and 4. group coaching to build capacity for identifying and solving problems of professional practice. Rock offers a practical approach for putting professional development where it can do the most good in the classroom. You'll learn why technology is so well suited for authentic, job embedded professional development. How to cultivate a culture in which the eCoaching continuum can have the greatest impact. Which technologies are the most useful for carrying out eCoaching in a variety of settings. How to capture and evaluate the impact of eCoaching.

on teachers and students The eCoaching Continuum for Educators integrates best practice in coaching for professional development with a detailed account of how teachers and other school professionals can use today s technologies to improve their practice and ensure their students are fully engaged and learning
