

# Format for Final Report

The final report is a comprehensive accounting of the three functional areas – administrative, education/outreach, and scientific/research – funded under the award. The NOAA Program Officer will review and provide feedback on acceptance of the Final Report. The NOAA Grants Management Division reviews the financial reporting and working with the Program Office determines if the full Final Report is approved. Award closeout is initiated after all reports are approved by NOAA.

Your CSC final report must stand on its own, such that a Program Officer need not refer to your proposal in order to understand the relationship between your report and the funded project. Effective reports include a succinct statement describing the originally proposed project (hypotheses, goals, strategies, and methods) at the beginning of the Approach and the section. Effective reports make links between the original hypotheses, goals, and/or strategies described in your proposal, approved plans, and the various findings and completed activities from the performing period. The content of your report, including PDF attachments, should not depend on access to internet hyperlinks. Please write a report that is as to the point, complete, and accurate as possible.

## Guidance for Final Report

**I. Report Title, Authors, Institutions/Organizations, Award Number, Award Performing Period (Start Date through End Date)**

### II. CSC Abstract

A brief (one paragraph) description of the Final Report.

### III. CSC Project Outcomes Report

A. A stand-alone description of the CSC award that is intended for viewing by the general public, to present a complete picture of the results of the funded CSC.

**Note:** There is increasing public and congressional interest in assuring that federal dollars are well spent, so while the outcomes report should be brief and accurate, PIs should strive to help the public appreciate the value of the work completed. The Outcomes Report should:

- not include any unpublished information, data, inventions or any other confidential information.
- not include any personally identifiable information such as names of participants.
