Employee: Monica Geller
Role: Program Director
Trainer: Rachel Green

Development & Learning Options:

The trainer will be responsible for Monica's professional development and growth while in her role as Program Director. This responsibility will include providing opportunities for her to learn new skills, receive feedback, and build her confidence. **Development and learning options to consider are:**

On-the-job Training: Providing them with specific tasks or projects to work on that will help them develop the skills they need to be successful in their role.

Mentorship: Connect them with a more experienced leader within the organization who can provide guidance and support.

Job Shadowing: Involves them observing an existing Program Director as they go about their job, which will give them a better understanding of what is expected of them in the role of Program Director.

E-learning Programs: There are many online courses and programs available that they can take advantage of to develop their skills.

Distance Learning Options: If there are no local courses or programs available, the trainer can look into options that they can do from home.

Customized Learning Experiences: Work with them to create a plan tailored to their needs and interests.

Key Performance Indicators (KPIs):

- The number of new skills or knowledge acquired
- The level of confidence demonstrated
- The ability to apply what has been learned in a real-world setting
- The quality of work produced
- The feedback received from others
- The level of satisfaction with the development experience
- The overall progress made over time
- The attainment of specific goals or objectives set for the development plan

Timeframe:

The timeframe for their development plan will depend on the specific goals and objectives.

However, it is essential to note that leadership development is a lifelong process, so even after the initial time frame has been completed, the trainer should continue to provide opportunities for them to grow and develop.
