 participants the innovators the teachers the students Similarly Volume 3 of *Bold Ventures* presents the results from case
 studies of five innovations in mathematics education Volume 1 provides a cross case analysis of all eight innovations Many U
 S readers certainly will be very familiar with the name of at least one if not all of the science innovations discussed in this
 volume for example Project 2061 and probably with their general substance Much of the education community's familiarity
 with these arises from the projects own dissemination efforts The research reported in this volume however is one of the few
 detailed studies of these innovations undertaken by researchers outside the projects themselves Each of the five studies was
 a large scale effort involving teams of researchers over three years These teams analyzed many documents attended
 numerous critical project meetings visited multiple sites conducted dozens of individual interviews The team leaders Atkin
 Huberman Rowe having spent much time with science education over long careers looked at these innovations through many

lenses It was a daunting task for each team to sift through the mountains of detail in order to bring the most compelling themes to the surface
