

FORESHADOWING AND FLASHBACKS

Both foreshadowing and flashbacks are literary devices that authors use to move the plot along. They occur within a story to either clarify or explain something that's happened in the past, or to give clues as to what will happen in the future. Both affect the chronology of the story, and the reader will need to be careful as to not confuse the timing of the story.

FORESHADOWING

Foreshadowing occurs when a writer provides hints that suggest future events in a story. Foreshadowing creates suspense and makes readers eager to find out what happens.

STORY

A flashback is an interruption of the action to present events that took place at an earlier time. A flashback provides information that can help a reader better understand a character's current situation.
