Every day it sees more than four trillion dollars worth of trade or about 10 times what the New York Stock Exchange can expect on a regular day

Despite the size of the market and the extensive amount of trading that it sees on an average day it was historically quite difficult for the average investor to track down the required information quickly enough to trade in the market effectively

This is no longer the case today however as the internet has made it possible for anyone to get in on the action and take advantage of the 50 to 1 leverage opportunities that it provides
