International Trade and International Finance Malabika Roy, Saikat Sinha Roy, 2016-05-26 This book brings together a collection of papers on international trade and international finance instead of treating the two as disjoint fields of study The volume while focusing on the recent developments and frontiers of research in international trade and international finance also

emphasizes the inherent integrated nature of the two subjects some of the papers are overlapping across the two areas A unique feature of the proposed volume is that it unravels some new issues in addition to re-examining certain old issues in a new perspective and thus covers wide ranging issues with an emphasis on policy The book covers issues mostly relating to emerging market economies which has increasingly assumed importance in the context of globalization The book contains some survey papers covering the frontiers of current knowledge on important themes like recent developments in trade theory and empirics foreign exchange market institutions in trade and finance interrelation and interaction between international trade and international finance The papers fruit of rigorous and original research are written by internationally and nationally reputed authors along with promising young researchers on the subjects The book substantially contributes to the growing literature on issues relating to trade and international finance in emerging market economies and extends the frontiers of knowledge The book is expected to have the widest possible readership comprising of advanced undergraduate and graduate students as well as senior researchers working in international trade and international finance

Global Finance Walden Bello, Nicola Bullard, Kamal Malhotra, 2000-10 Leading thinkers from both North and South confront what is to be done about the clearly unstable world economic system They examine a range of different ideas and approaches including how do we renew the process of governance of the global economy can the IMF be reformed do we need a new World Financial Authority is there a case for capital controls can an international bankruptcy procedure be set up for countries modelled on the USA's own domestic Chapter 11 could the Tobin Tax on foreign currency transactions be part of the solution and what effective measures are needed to relieve the most deeply indebted countries

Rethinking Regulation of International Finance Uzma Ashraf Barton, 2016-04-24 Why have financial standards and institutions almost always failed to effectively predict and respond to real world financial crises The answer this challenging book shows is that international financial law suffers from a persistent lack of judicial or quasi-judicial enforcement mechanisms leaving flaws in the structure of the international financial system that lead inevitably to excesses that threaten the public good of global financial stability The author an internationally renowned legal expert on financial and fiscal reforms responds to the increasingly urgent call for rethinking the structure and the functioning of international financial law Centering on the concept of enforcement which continues to be an unresolved issue in the discipline of international financial law the analysis describes the likely contours of hard law regulatory reform It weighs the pros and cons of much talked about regulatory and policy issues like the following and more policy implications from the transformation of finance from a domestic to an international concept new or revised supervisory and regulatory bodies with redefined mandate jurisdictions and powers possibility of a treaty based structure similar to the European Union's integration framework and consolidation of crisis prevention and crisis management policies The analysis takes into account instances from trade and monetary systems pertinent to the development of the discipline of international financial law A concluding chapter explores possibilities for putting in place an asset backed resilient financial

system based on risk sharing and empowered to legislate reform and authorized to seek compliance from its members With its provision of unconventional alternatives for further development of international financial law to realize stable predictable and robust international markets including early warning systems and fully primed crisis prevention mechanisms the book explores the essential link between global financial stability effective regulation and institutional development that will engender realistic global policy solutions It will prove to be of great importance to regulatory and legal practitioners as well as to academic and think tank scholars
