Custom policies can be published alongside the InterQual Criteria to create a single workflow within your utilization management solution. Cloud-based InterQual delivery platforms give providers seamless access to your customized policies and criteria.

This capability helps reduce the administrative burden for both payers and providers, and improves collaboration by increasing care criteria transparency.

Change Healthcare also offers customization services. Clinical and product experts can execute your custom medical policies within your InterQual workflow, providing product expertise and saving your organization time.

Clinical Integrity

The clinical criteria populating each module are updated at least once annually and are produced through a rigorous process grounded in the principles of evidence-based medicine. Criteria development is conducted by a clinical team that includes physicians, registered nurses, and allied health professionals. The team relies on systematic, critical appraisal of the medical literature using elements of the Grading of Recommendations, Assessment, Development and Evaluation (GRADE) approach. Draft criteria are subjected to systematic scrutiny by our InterQual Clinical Review Panel of more than 1,000 independent, multidisciplinary experts.
