

3 The ITIL Service Management Lifecycle – core of practice

The Service Lifecycle contains five elements as shown in Figure 3.1, each of which rely on service principles, processes, roles and performance measures. The Service Lifecycle uses a hub and spoke design, with Service Strategy at the hub, Service Design, Transition and Operation as the revolving lifecycle stages, and anchored by Continual Service Improvement. Each part of the lifecycle exerts influence on the other and relies on the other for inputs and feedback. In this way, a constant set of checks and balances throughout the Service Lifecycle

ensures that as business demand changes with business need, the services can adapt and respond effectively to them.

At the heart of the Service Lifecycle is the key principle – all services must provide measurable value to business objectives and outcomes. ITIL Service Management focuses on business value as its prime objective. Each practice revolves around ensuring that everything a service provider does to manage IT services for the business

Service Intelligence Sharon Taylor, 2011-07-28. Get the Right IT Services on the Right terms Without Hassles or Overpaying. To gain the full benefits of technology and avoid the staggering costs of technology failure, you must manage IT with vision, direction, and expertise. Only one set of methods is robust enough to do this: IT Service Management (ITSM). In *Service Intelligence*, ITSM pioneer Sharon Taylor shows business managers how to make the most of it. You'll learn how to ensure service quality, anticipate vulnerabilities, improve reliability, and link IT directly to business performance. Taylor explains ITSM from a true business point of view, cutting through jargon and helping you drive value without becoming overly technical. She gives you powerful tools for negotiating IT services more effectively, improving IT ROI, and escaping captivity to either internal or external IT providers. Coverage includes: Recognizing what excellent IT service looks like and assessing what you're getting now; Selecting the best IT service providers and services for your needs; Spotting and rectifying trouble with internal or external supplier relationships; Making sure you don't pay for services you don't need; Negotiating services requirements, levels, price, quality, and delivery; Leveraging ITSM practices without losing focus on the business; Creating business-focused service reports and scorecards that focus on what matters most.
