**The Limits of Labour** David Bright,2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary s reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left

the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s Facts and Speculations on the Origin and History of Playing Cards William Andrew Chatto,2022-05-29 In Facts and Speculations on the Origin and History of Playing Cards William Andrew Chatto delves into the intriguing lineage of playing cards tracing their origins from the East to their eventual adoption in Europe Chatto employs a meticulous literary style combining historical inquiry with a sprinkle of cultural analysis offering readers both facts and engaging speculations The book is structured methodically presenting a wealth of information that reflects the burgeoning interest in popular pastimes during the 19th century making it a cornerstone for scholars examining leisure activities and their sociocultural implications William Andrew Chatto a noted antiquarian and bibliophile possessed a keen interest in the intersection of culture history and everyday life His background in literature and his exposure to the rising historical consciousness of his time surely fueled his fascination with artifacts of leisure such as playing cards Through his inquisitive lens Chatto invites readers to ponder the social ramifications and historical transformations that games have undergone particularly in relation to shifting power dynamics and consumer habits Facts and Speculations on the Origin and History of Playing Cards is a fascinating exploration for anyone interested in the intricate patterns of human leisure Chatto s blend of academic rigor and accessible prose makes this work a valuable resource for historians cultural studies scholars and avid card players alike beckoning them to reflect on the enduring legacy of this seemingly simple pastime In this enriched edition we have carefully created added value for your reading experience Hand picked Memorable Quotes shine a spotlight on moments of literary brilliance Interactive footnotes clarify unusual references historical allusions and archaic phrases for an effortless more informed read **Cumulative Book Index** ,1925 A world list of books in the English language **History of Cook County, Illinois** Alfred Theodore Andreas,1884 Normal Instructor ,1912 Documents Relating to the Constitutional History of Canada. 1759-1791 Public Archives of Canada,1898 *History of Chicago: Ending with the year 1857* Alfred Theodore Andreas,1884 *New South Wales Educational Gazette* ,1899 **Parliamentary Papers** Great Britain.
