Break Down Inventory Michael Landy, 2002 Accompanying the 2001 exhibition that made its debut at a shop in Oxford Street London this title is in effect an inventory of the possessions that were broken down into their component parts during the installation

The Municipal Buyers' Guide, 1975 [From Doors to Screens](#) Ido Lewit, 2006-04-01 Reveals how objects and technologies function as discursive agents in film with formal narrative and argumentative consequences From Doors to Screens treats filmic representations of non filmic technologies as potentially meaningful intermedial encounters wherein the objects and media represented interact with the basic characteristics of film in ways that affect cinematic expression meaning making and argumentation Focusing on doors clocks gramophones and video screens in films by Ernst Lubitsch Fritz Lang Werner Herzog Michael Haneke and others the book reveals how these objects and technologies function as discursive agents with formal narrative and argumentative consequences Applying media theory to film analysis the book proposes a novel methodology for the close reading of films offering an alternative to more common symbolic and metaphorical interpretations

Diagnosis of Process Nonlinearities and Valve Stiction Ali Ahammad Shoukat Choudhury, Sirish L. Shah, Nina F. Thornhill, 2008-08-20 were published in the series as the contributed volume *Process Control Performance Assessment From Theory to Implementation* with Andrzej Ordys Damian Uduehi and Michael Johnson as Editors ISBN 978 1 84628 623 0 2007 Along with this good progress in process controller assessment methods researchers have also been investigating techniques to diagnose what is causing the process or control loop degradation This requires the use of on line data to identify faults via new diagnostic indicators of typical process problems A significant focus of some of this research has been the issue of valve problems a research direction that has been motivated by some industrial statistics that show up to 40% of control loops having performance degradation attributable to valve problems Shoukat Choudhury Sirish Shah and Nina Thornhill have been very active in this research field for a number of years and have written a coherent and consistent presentation of their many research results as this monograph *Diagnosis of Process Nonlinearities and Valve Stiction* The *Advances in Industrial Control* series is pleased to welcome this new and substantial contribution to the process diagnostic literature The reader will find the exploitation of the extensive process data archives created by today's process computer systems one theme in the monograph From another viewpoint the use of higher order statistics could be considered to provide a continuing link to the earlier methods of the statistical process control paradigm
