appropriate information quickly whether they are answering questions at a physical help desk or remotely by telephone email or instant messaging service The book will help academic librarians tackle the questions most commonly asked by students academics and researchers A broad cross disciplinary A Z of themes including topics such as literature searching plagiarism and using online resources are covered helping you to address an query confidently and quickly Each topic is split into three sections to guide your response typical questions listing the common enquiries encountered points to consider exploring the issues and challenges that might arise where to look listing annotated UK and international resources in print and online including key organisations scholarly bodies digital libraries statistical data and journal article indexes A Z Common Reference Questions for Academic Librarians updates and expands the author s previous book Know it All Find it Fast for Academic Libraries and includes new sections on blogging and social media text and data mining and data visualization assistive technology resources early career researchers impact measurement including bibliometrics citation analysis and journal rankings academic internet searching LGBT studies Middle East studies project management open access publishing research data management study skills systematic reviews This will be an indispensable day to day guide for anyone working with students academics and researchers in an academic library

EBOOK: Succeeding with your Master's Dissertation: A Step-by-Step Handbook John Biggam, 2018-02-16 What do I need to do to write a literature context or systematic review How do I explain my research methods and write up my findings Help How do I prepare for a viva This essential handbook carefully guides the student through the entire dissertation process from start to finish offering clear straightforward and practical advice Biggam uses clear illustrations of what students should do or not do to reach their full potential helping them to succeed with their dissertation and avoid common pitfalls along the way Thoroughly updated this popular book takes the student from research proposal through literature reviews research methods and writing up referencing and avoiding plagiarism through to submission and marking featuring New chapter on Introducing the Master s Dissertation focusing on the skills you need to succeed New material on Contextual Review for computer science art and performance art students Updated material on the benefits of using university library databases and social media in research Expanded advice on the emotional journey and where to find assistance and support New Research Methods chapter for art drama and computer science students This is key reading for any social science business humanities or healthcare student required to complete a dissertation as part of their studies It will also prove useful for undergraduate students considering postgraduate studies and for supervisors facilitating dissertation supervision This book is a really excellent and friendly guide through the Master s dissertation process It is clearly and engagingly written and easily understandable to a student It also guides students gently from a general understanding in the first chapter down to a significant level of detail in each subsequent chapter with worked examples and relevant practical tips It also usefully highlights common mistakes The book presents a realistic view of undertaking a Master s degree presenting the generic skills needed for success and acknowledging that life outside the

dissertation is complex messy and can sometimes get in the way It is particularly useful and relevant to my students as unlike many other books on this topic it does not ignore practice based forms of research in fact the book includes a substantial chapter on practice as research in the creative disciplines This chapter includes software alongside creative arts and is therefore particularly suitable for inter or multi disciplinary postgraduates using technology to enhance their existing understanding of a subject or their practice through research I also really like the fact that the chapter on Abstracts is at the end where it belongs and that students are explicitly told to write it last no matter how many times I tell my students this it is a common and recurring mistake Daisy Abbott School of Simulation and Visualisation The Glasgow School of Art UK The dissertation component of a Master s programme can be very daunting for students In this book John Biggam demystifies both the concept and process of a dissertation Biggam clearly explains the different parts of a dissertation and offers a pragmatic structure which can be used by students to help frame their ideas Also the guidance given in the book is written in a reassuring tone which is never patronising The summary on good practise in dissertation writing should be particularly useful during the planning stage and as a final check for students Dr Donna Murray SFHEA Head of Taught Student Development Institute for Academic Development The University of Edinburgh UK

Studying Geography at University Simon Tate, Peter Hopkins, 2020-10-27 Written by leading academics this book is an invaluable how to guide to studying for a Geography degree Written in a practical and conversational style it offers important insights into how to succeed in the first year of your degree course covering everything from how to succeed in assessments to how to decide where to live Some of the information the book provides is academic and some of it is non academic as negotiating both is important in order to be successful in the first year of a Geography degree Studying Geography at University is ideal for those in the early stages of applying to university Each chapter offers hints and tips and gives practical real world insights into becoming a successful geography student that will enrich applications open days and visit days It is also possible to dip into the chapter summaries What Do Students Say and Top Tip boxes only Written by current students from a range of institutions these provide unique insights into the book s key points Current students should also keep and refer to the book as an invaluable guide through the first few months of their degree This guide is a must read for anyone starting their studies in Human Geography Physical Geography Environmental Science or any other related subject at university
