The American Naturalist, 1884 **Stabilization Operations, Security and Development** Robert Muggah, 2013-07-24 This edited volume provides a critical overview of the new stabilization agenda in international relations. The primary focus of so-called stability operations since 9/11 has been Afghanistan, Pakistan, and Iraq. Covering the wider picture, this volume provides a comprehensive assessment of the new agenda, including the expansion of efforts in Latin America, the Caribbean, Sub-Saharan Africa, and South and Southeast Asia. By harnessing the findings of studies undertaken in Brazil, Colombia, Haiti, Jamaica, Kenya, Democratic Republic of the Congo, DRC, Sudan, and Sri Lanka, the volume demonstrates the impacts, intended and otherwise, of stabilization in practice. The book clarifies the debate on stabilization, focusing primarily on the policy, practice, and outcomes of such operations. Rather than relying exclusively on existing military doctrine or academic writings, the volume focuses on stabilization as it is actually occurring. Drawing on the reflections of scholars and practitioners, the volume identifies the origins and historical antecedents of contemporary operations and also examines how the practice is linked to other policy spheres, ranging from peacebuilding to statebuilding. Finally, the volume reviews eight practical cases of stabilization in disparate regions around the globe. This book will be of much interest to students of war and conflict studies, peacekeeping, and peacebuilding, statebuilding, development studies, and international relations in general.

Customary International Humanitarian Law Jean-Marie Henckaerts, Louise Doswald-Beck, International Committee of the Red Cross, 2005 Customary International Humanitarian Law Volume I: Rules is a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. In the absence of ratifications of important treaties in this area, this is clearly a publication of major importance, carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts.
