

Exponential Growth and Decay

Solve each exponential growth/decay problem.

- 1) For a period of time, an island's population grows at a rate proportional to its population. If the growth rate is 3.8% per year and the current population is 1543, what will the population be 5.2 years from now?
- 2) During the exponential phase, *E. coli* bacteria in a culture increase in number at a rate proportional to the current population. If the growth rate is 1.9% per minute and the current population is 172.0 million, what will the population be 7.2 minutes from now?
- 3) Radioactive isotope Carbon-14 decays at a rate proportional to the amount present. If the decay rate is 12.10% per thousand years and the current mass is 135.2 mg, what will the mass be 2.2 thousand years from now?
- 4) A savings account balance is compounded continuously. If the interest rate is 3.1% per year and the current balance is \$1077.00, in how many years will the balance reach \$1486.73?

1) Using the exponential growth formula, $A = P e^{rt}$, where A is the amount after t years, P is the principal, r is the growth rate, and t is the time in years. In this problem, $P = 1543$, $r = 0.038$, and $t = 5.2$. Substituting these values into the formula, we get $A = 1543 e^{0.038(5.2)}$. Evaluating this expression, we find that the population will be approximately 1843.5 years from now.

2) Using the exponential growth formula, $A = P e^{rt}$, where A is the amount after t minutes, P is the principal, r is the growth rate, and t is the time in minutes. In this problem, $P = 172.0$ million, $r = 0.019$, and $t = 7.2$. Substituting these values into the formula, we get $A = 172.0 e^{0.019(7.2)}$. Evaluating this expression, we find that the population will be approximately 184.5 million 7.2 minutes from now.

Math Practice Exponential Growth And Decay Problems Kuta Worksheet

Patrick Vollmar

Math Practice Exponential Growth And Decay Problems Kuta Worksheet:

If you ally infatuation such a referred **Math Practice Exponential Growth And Decay Problems Kuta Worksheet** book that will offer you worth, acquire the enormously best seller from us currently from several preferred authors. If you want to droll books, lots of novels, tale, jokes, and more fictions collections are as a consequence launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all ebook collections Math Practice Exponential Growth And Decay Problems Kuta Worksheet that we will very offer. It is not on the costs. Its just about what you dependence currently. This Math Practice Exponential Growth And Decay Problems Kuta Worksheet, as one of the most full of zip sellers here will definitely be in the course of the best options to review.
