

Concrete Problems for Teachers

Many more mathematical relationships are provided by the discussion of these games in this activity; you will probably generate additional relationships yourself in this process as you explore the materials.

Children and adults may use the materials to create their own activities. There are small amounts of paper, string, tape, a drawing board, and other resources. Adult activities require materials readily available. Children may also be interested in creating a picture book about mathematical activities that originate naturally. These activities focus on the building of mathematical and geometric ideas, including properties and operations, relationships and patterns, and patterns of numbers in various situations. An additional activity may be designed to help children understand the patterns of numbers in various situations.
