Growth, Human Development, Social Cohesion Canada. Privy Council Office. Policy Research Committee, Jim Lahey, Alan Nymark, 1996

The Policy Research Committee was created in July 1996 as part of a project to understand the policy environment over the medium term and to begin planning for the next decade. The mandate of the Committee is to prepare a report on the pressure points likely to arise in Canadian society by the year 2005 as a result of economic, demographic and social trends and to make recommendations regarding an interdepartmental research agenda and work program to address gaps in knowledge. This interim report presents the Committee's overview and interpretation along with suggestions on what policy makers will need to know in the future. Chapter 1 reviews medium term pressure points with regard to underlying forces: growth, human development and social cohesion. Chapters 2-12 focus on individual topics such as sustainable development, the fiscal environment, productivity, the labour market, health, Aboriginal issues, culture and values, and regions and communities. The final chapter considers options for an interdepartmental framework and process to coordinate policy research.
