

# AACSB Assessment Health Sciences/Biology Placement

The Assessment Placement Test is designed to determine a student's level of readiness for college-level mathematics.

The following questions are similar to those you've studied previously. If you've studied these items in previous math courses, you may be able to skip them. The answers to the questions appear at the end of this manual.

The answers are on lines 1-3 below the question, selected for you (usually) and spelled. Misunderstanding questions concerning rates is always an AT test feature in practice. Only rates related to the test are allowed. Misunderstanding rates are also identified in the problem-solving practice for A.A.S. and students will not be penalized.
