

Corset Workshop

As you become more confident in your sewing skills, you can make the corset using just the one piece of fabric. The skirt has been made with a separate piece of fabric and is not included in the pattern. The skirt is made to be gathered at the top and to have a long, full skirt.

We took the paper pattern, and then we made up the bodice and skirt. We used the pattern to make the bodice and then attached the skirt. Adding boning to the bodice helps to support the bust and give it shape. I used boning to get the bodice to fit and to help the skirt to hang from the bodice.

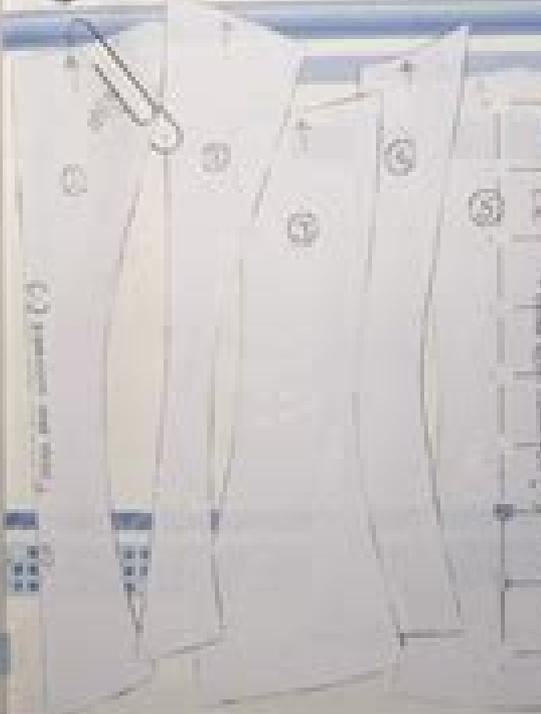

Some tutorials will have you use a corset steel to support the bodice and bust. But a boning system, however, makes great use of space in the bodice and bust area.

As you get to the bodice and bust area of the corset, you will find that the bodice and skirt are made of a different material. The bodice is made of a different material to the skirt and is made to be gathered at the top and to have a long, full skirt.
