Appropriate for business managers and analysts      **Fundamentals of Operations Management** Mark M. Davis,2005

Davis Fundamentals of Operations Management fits the one semester course at either the undergrad or MBA market The 1st Canadian edition addresses the increasing trend toward briefer less quantitative and more managerial on issues that confront managers today and does so within a Canadian and global perspective Davis also serves customers in search of a brief conceptual overview to support their own lecture notes additional readings and or case material      Managing Business Processes Philip Rowland,1996-11-07

Leaders in their field of expertise present a cross disciplinary view of business process re engineering BPR going beyond an information systems perspective to take into account strategic and operations management human resources and accounting They investigate the idea that BPR challenges the functional viewpoint of an enterprise cutting across traditional structures to lead to radical improvements in performance Uses case studies to support the research based concepts      **Manufacturing & Service Operations Management** ,2002      Process Theory Matthias Holweg,Jane Davies,Arnoud De Meyer,Benn Lawson,Roger Schmenner,2018-02-09

The motivation for this book came out of a shared belief that what passed as theory in operations management OM was all too often inadequate In one respect OM scholars were bending over backwards to make theories from other fields fit our research problems In another questionable assumptions were being used to apply mathematics to OM problems Neither proved a good match with what the authors had observed in practice Successful operations were managed by considerations that were far more straightforward than much of what was being published The authors of this book codify these practical considerations into a set of ten fundamental principles that bring together a century of operations management thinking The authors then apply these principles to important topics such as process design process improvement the supply chain new product development project management environmental sustainability and the interfaces between operations management and other business school disciplines
