

On Friendship

Last night I was on the phone with my old college roommate. She recently broke up with her boyfriend and now, she told me, she ended her friendship with Scott, her best friend since fifth grade.

Knowing that Danielle can sometimes be hasty in her decisions to end friendships rather than confront a problem (we once had a similar situation), I asked her if she was sure she was doing the right thing and had actually discussed this with Scott. (I remember the one time, she felt confronting the problem meant unplugging my computer in the middle of a research project and storming out of the apartment.)

She assured me that she had, and that surprisingly enough, Scott agreed the friendship needed to be ended. It was hard, she said. She pushed her two closest friends away. But, she added, she felt good. She felt strong and ready to grow in a new direction.

While I was reflecting on this conversation, I thought about the friendships I have had in my life. Some were good, some bad. Some were mediocre. A few have lasted. However, most have fallen apart either due to lack of communication or lack of need. Sometimes, like the situation above, both parties understand the break. Sometimes, it is unfathomable.

I don't regret much in my life and one of the things I do not regret is saying goodbye to certain friendships. It is this aspect of friendship on which I will focus rather than the friends I still have or the friendships I wish I hadn't severed. These expired relationships often teach us just as much as the other types.

Friends should not demean, belittle, emotionally abuse you, and/or only give and not take. That is the reason several of my friendships have ended. There is also always the friend who takes a separate path or resents you for taking yours. But whatever the reason, friendships end. This is a good thing. Imagine all the emotional baggage, bad memories, and embarrassing people you would need to cart around with you forever.

I have learned from the friendships I have ended and they have all taught me important lessons. From Mandy, I have learned that people might be as supportive and loving as possible, but do it only for their own purposes. Melanie told me that she would rather be Mandy's friend. From John, I realized that some people only want friends when they need them and can control them. Catie taught me that some values and decisions can not be overlooked. Sometimes two people change so much that they can not remain friends.

I do get sad and nostalgic when I remember some of these friendships. There are times that I dearly miss my high school days with Mandy. There are times when I miss the sleepovers with Catie. There are also times when I wish that John and I could have separated responsibilities and feelings. However, when I get the email that begins "I know we haven't talked in two years, but when I remember the reason the friendship was ended in the first place, I briefly consider rekindling the friendship and then, more often than not, I realize that these times in my life have ended for a reason. I have, like Danielle will, grown and changed. I have become stronger and more compassionate in my treatment of others. These friends of the past have given me this gift. I am who I am today, because of the friends I no longer have.

The Lea Guide To Composition James D. Williams, 2005-04-11 The LEA Guide to Composition is firmly based on research into how people learn to write and draws on the most significant strategies and techniques in composition studies. But this text is not just about the act of writing. It is about using writing as a vehicle for learning about the world, about the academy, about oneself. The focus is on writing as a means of interpretation. The emphasis throughout is on encouraging reflection and developing critical thinking skills. Although the text suggests ways of teaching that reflect knowledge about how people most easily learn to become competent writers, it is specifically designed to allow for numerous approaches to teaching composition. Instructors will value this flexibility. This text is finely tuned to the needs and interests of today's composition students and teachers. Classroom tested at various universities over a four-year period to refine and improve its effectiveness, the Guide is distinguished by a range of carefully crafted instructional features.

Reading Writing Connection An extensive selection of fresh, thought-provoking professional work allows students to internalize models and acquire appropriate genre familiarity. Student papers are included to illustrate how others have responded to real writing tasks similar to those the readers of this book will face.

Critical Reading and Thinking Numerous reading selections are thoroughly analyzed to provide models of close critical reading. Critical Reading Guides provided for some selections draw students in by asking rhetorical questions that develop critical thinking skills and better understanding of how the authors produced key effects.

Diverse Voices Specially designed writing activities encourage students who are non-native speakers of English or who come from non-mainstream cultural backgrounds to share their perspectives with the entire class.

Writing Activities More than 60 writing activities of various types are included, suitable for students with a range of writing experience. Many of these are short assignments that are linked to longer ones, which allows students to build their skills sequentially, adding new skills as old ones are practiced and mastered.

Writing Guides Based on years of teaching experience, these guides provide detailed information and concrete practical advice about how to succeed on selected assignments in each chapter.

Group Activities Selected writing assignments include collaborative workshop activities that prompt students to engage in a variety of group efforts that enhance the writing process. As a result, group work progresses with a clear purpose and well-defined goals, leading to more student involvement and ultimately better writing.

Application of Key Ideas Writing Assignments, Writing Guides, and Critical Reading Guides are complemented by activities that allow students to practice using important concepts discussed in the text that progress with a clear purpose and well-defined goals before they begin an actual assignment.

Journal Entries Prompts throughout the text are included to increase the amount of writing students do to enhance reflection and critical thinking and to engage students in reflecting on and making connections between college and their lives outside of class.
