Gerardus Blokdyk, 2019-05-03 What is the frequency of data sources? Are written budgets changed when future plans are changed? What is the average number of modifications and fixes raised per month/quarter for Hyperion Oracle and SDR-based applications during the last year? When should your organization use static budgeting and when should it use a flexible budget? Defining, designing, creating, and implementing a process to solve a challenge or meet an objective is the most valuable role. In EVERY group, company, organization, and department. Unless you are talking about a one-time single-use project, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, "What are we really trying to accomplish here? And is there a different way to look at it?" This Self-Assessment empowers people to do just that: whether their title is entrepreneur, manager, consultant, Vice President, CxO, etc., they are the people who rule the future.
