Essentials of Fire Fighting Textbook International Fire Service Training Association, 2013 The 6th edition is completely revised for today's firefighters and begins the next 35 years of excellence for the manual and for the firefighters who use it. The 6th edition contains all the information and skills needed to meet the requirements for NFPA 1001 Standard for Fire Fighter Professional Qualifications 2013 Edition. This manual includes all new learning objectives, key terms noted in boxes in the margins of each chapter, case histories, and all new review questions in each chapter designed to enhance a student's understanding. The content is presented in a single column format, proven most effective for reading comprehension for adult learners. Warnings, Cautions, and Safety Alerts emphasize safety at all times for new firefighters mastering basic skills. Skill sheets show safe methods for performing each firefighter skill. Each chapter clearly delineates Fire Fighter I knowledge and skills from Fire Fighter II, addressing each in separate sections of the chapters. Photographs are enhanced with graphics; all illustrations are new and improved. There are additional tables to make content more relevant for visual learners. Appendix A is a correlation matrix for all NFPA 1001 JPRs, referenced to page numbers for each knowledge and skill requirement.
