Ethical Consumers Guide:

The Ethical Consumer Guide to Everyday Shopping, 1993-01-01 **The Ethical Consumer** Rob Harrison, Terry Newholm, Deirdre Shaw, 2005-03-15 This book is not simply the best book on the remarkable phenomenon of today's ethical consumer. It is a gift of advice and insight from the people that know best to the cause of tomorrow. Many of the writers deserve the plaudits of being pioneers of a new consumer movement. These are the issues of our time. Ed Mayo, Chief Executive of the UK's National Consumer Council (NCC). Who are ethical consumers and why are they on the rise? Leading the way towards answering this question. *The Ethical Consumer* is an indispensable introduction to the subject. Exploring areas like boycotts and fair trade projects, it gathers together the diverse experiences of scholars, campaigners and business practitioners from the international community. The chapters in this book explore ethical consumer behaviours, motivation and narratives, the social, political and theoretical contexts in which ethical consumers operate, the responsibilities of businesses and the effectiveness of ethical consumer actions. Contributions are informed by a broad range of research methods from case studies, focus groups to surveys and interviews. The text is of interest to business-related graduates, undergraduates and their tutors on courses relating to consumption. It will also be relevant to academics in other disciplines as well as to politicians, producers, practitioners, campaigners and not least consumers.

The Ethical Consumer Guide John Elkington, Julia Hailes, Francis B. Gillis, 1998 **Consumerism in Twentieth-Century Britain** Matthew Hilton, 2003-11-13 This book is the first comprehensive history of consumerism as an organised social and political movement. Matthew Hilton offers a groundbreaking account of consumer movements, ideologies and organisations in twentieth-century Britain. He argues that in organisations such as the Co-operative movement and the Consumers Association, individual concern with what and how we spend our wages led to forms of political engagement too often overlooked in existing accounts of twentieth-century history. He explores how the consumer and consumerism came to be regarded by many as a third force in society with the potential to free politics from the perceived stranglehold of the self-interested actions of employers and trade unions. Finally, he recovers the visions of countless consumer activists who saw in consumption a genuine force for liberation for women, the working class and new social movements, as well as a set of ideas often deliberately excluded from more established political organisations.

The Unmanageable Consumer Yiannis Gabriel, Tim Lang, 2006-04-07 This book was radically challenging when it was first published and is only more so today as the concept of consumer collapses under the weight of its many meanings. Madeleine Bunting, Columnist, *The Guardian*. Western-style consumerism appears unstoppable. Yet it has failed to deliver greater happiness and is now facing major environmental, population and political challenges. This book examines the key Western traditions of thinking about and being a consumer. Each chapter posits a consumer model with examples from the international community. Readers are invited to enter an exciting and radical analysis of contemporary consumerism which suggests that consumerism is fragile and consumers

unpredictable Updated with new material this Second Edition looks at the impact of new technologies on consumerism and the consolidation of consumerism and consumer language in spheres like education and health The authors discuss the spread of consumerism to developing countries like India and the effect of demographic change and migration The fallout from 9 11 and United States military hegemony is examined as is the influence on consumerism of Islamic fundamentalism the anti globalization movement environmental concerns and depleting natural resources This book is of interest to advanced undergraduate postgraduate and MBA students taking courses on behaviour buyer behaviour customer behaviour consumers and society and retailing Any one interested in better understanding consumerism will also find this book a fascinating read
