Legal Medicine in History Michael Clark, Catherine Crawford, 1994-06-09 A collection of essays on the social history of legal medicine including case studies on infanticide abortion coroners inquests and criminal insanity **Samuel Pufendorf and the Emergence of Economics as a Social Science** Jürgen G. Backhaus, Günther Chaloupek, Hans A. Frambach, 2020-11-21 This book discusses Samuel Pufendorf and his contributions to the development of the European Enlightenment and the emergence of economics as a social science Born in 1632 in Saxony Pufendorf wrote widely on natural law ethics jurisprudence and political economy and was one of the most important figures in early modern political thought Although his work fits within the intellectual framework of natural jurisprudence there is an argument to be made that his ideas promoted the development of economics as a distinct discipline within the social sciences Written by participants in the 34th Heilbronn Symposium in Economics and the Social Sciences the contributions to this volume give an overview of Pufendorf's influence on other authors of the Enlightenment such as Locke Montesquieu and Rousseau as well as addressing the theoretical implications of his extensive writings Further chapters place a special focus on Pufendorf's discussion of economic matters such as property rights theory price theory taxation and preferences and decision making The book concludes with analyzing Pufendorf's influence on Adam Smith his anticipations of elements of modern economic theory and his impact on the history of economic thought Providing a fresh look at one of the foundational scholars of social science this volume will be of interest to researchers and students of the history of economic thought political economy economic history and political philosophy **The Weekly notes**, 1891 [A Critical Bibliography of Adam Smith](#) Hiroshi Mizuta, 2016-07-01 This critical bibliography of Adam Smith takes as its starting point the Kress Library of Business and Economics 1939 catalogue of its Vanderblue Collection of Smithiana Since the bicentenary of *The Wealth of Nations* in 1976 the rate of international publication markedly accelerated significantly extending the scope of this bibliography beyond 1939 Its scope has been further enlarged via the inclusion of essays on the diffusion process while the inclusion of all works in the

chronological main bibliography gives an overview of the scope of this process The notes appended to the entries provide a running commentary to the gathering pace of publication and the entries are organised chronologically with systematic annotation throughout

Natural Law and the Origin of Political Economy Arild Saether, 2017-06-26 Samuel Pufendorf's work on natural law and political economy was extensive and has been cited by several important figures in the history of economic thought Yet his name is rarely mentioned in textbooks on the history of economic thought the history of political science or the history of philosophy In this unprecedented study Arild Saether sheds new light both on Pufendorf's own life and work as well as his influence on his contemporaries and on later scholars This book explores Pufendorf's doctrines of political economy and his work on natural law which was translated into several major European languages Natural Law and the Origin of Political Economy considers the influence he had on the writings on political economy of John Locke Charles Montesquieu Jean Jacques Rousseau Francis Hutcheson and Adam Smith amongst others If Smith can be called the father of modern economics this book claims that Pufendorf can be called the grandfather This volume is of great importance to those who study Pufendorf's extensive works as well as those interested in history of economic thought political economy and political philosophy
