The 1990s An extraordinary decade in Europe At its beginning the old order collapsed along with the Berlin Wall Everything seemed possible Everyone hailed a brave new Europe But no one knew what this new Europe would look like Now we know Most of Western Europe has launched into the unprecedented gamble of monetary union though Britain stands aside Germany peacefully united with its capital in Berlin is again the most powerful country in Europe The Central Europeans Poles Czechs Hungarians have made successful transitions from communism to capitalism and have joined NATO But farther east and south in the territories of the former Soviet Union and the former Yugoslavia the continent has descended into a bloody swamp of poverty corruption criminality war and bestial atrocities such as we never thought would be seen again in Europe Timothy Garton Ash chronicles this formative decade through a glittering collection of essays sketches and dispatches written as history was being made He joins the East Germans for their decisive vote for unification and visits their former leader in prison He accompanies the Poles on their roller coaster ride from dictatorship to democracy He uncovers the motives for monetary union in Paris and Bonn He walks in mass demonstrations in Belgrade and travels through the killing fields of Kosovo Occasionally he even becomes an actor in a drama he describes debating Germany with Margaret Thatcher or the role of the intellectual with V clav Havel in Prague Ranging from Vienna to Saint Petersburg from Britain to Ruthenia Garton Ash reflects on how the single great conflict of the cold war has been replaced by many smaller ones And he asks what part the United States still has to play Sometimes he takes an eagle s eye view considering the present attempt to unite Europe against the background of a thousand years of such efforts But often he swoops to seize one telling human story that of a wiry old farmer in Croatia a newspaper editor in Warsaw or a bitter beautiful survivor from Sarajevo His eye is sharp and ironic but always compassionate History of the Present continues the work that Garton Ash began with his trilogy of books about Central Europe in the 1980s combining the crafts of journalism and history In his Introduction he argues that we should not wait until the archives are opened before starting to write the history of our own times Then he shows how it can be done
