

Chapter 5 Study Guide

The form of government of the Commonwealth of Virginia is established by the Virginia Constitution. Legislative, executive, and judicial powers are separated at the state level of government. You will be expected to describe the structure and power of the state government.

The Virginia Constitution distributes power among the legislative, executive, and judicial branches of the state government.

The Constitution of the United States establishes the principle of federalism, which is the division of power between the states and the national government. The expansion of the national government's powers into areas traditionally reserved to the states has altered the relationship of states to the national government. You will be expected to explain the relationship of state governments to the national government in the federal system.
