

### THE GALAXY IS IN CRISIS

#### Queen Masha Bowman

One of our most prominent scientists has gone missing on Altara. Normally we would leave this to the local authorities, but she was currently working on a revolutionary new terraforming technology capable of terraforming continents, and maybe even planets, almost instantly. Our biggest concern is that in the wrong hands this technology could be a terrible weapon. She was last seen in the local shipyard attempting to hire a ship. We don't know if she found one, and if she did where she has gone.

#### What do you decide?

- Send investigators to help the authorities find out where she was trying to go when she vanished. +15 Reverent
- Send researchers to investigate if this technology can be weaponized, we need it. +15 Pragmatic
- The locals can't handle this, send someone to the shipyard to find out where she went. +15 Militant
