EA Sports FIFA Raiford Guins, Henry Lowood, Carlin Wing, 2022-07-14 If there is anything close to a universal game it is association football also known as soccer football futsal f tбол fitba and futebol The game has now moved from the physical to the digital EA s football simulation series FIFA with profound impacts on the multibillion sports and digital game industries their cultures and players Throughout its development history EA s FIFA has managed to adapt to and adopt almost all video game industry trends becoming an assemblage of game types and technologies that is in itself a multi faceted probe of the medium s culture history and technology EA Sports FIFA Feeling the Game is the first scholarly book to address the importance of EA s FIFA From looking at the cultures of fandom to analyzing the technical elements of the sports simulation and covering the complicated relations that EA s FIFA has with gender embodiment and masculinity this collection provides a comprehensive understanding of a video game series that is changing the way the most popular sport in the world is experienced In doing so the book serves as a reference text for scholars in many disciplines including game studies sociology of sports history of games and sports research *Cases on Formal and Informal E-Learning Environments: Opportunities and Practices* Yang, Harrison Hao, 2012-07-31 Today the online sphere is no longer just an information repository or a place to search for resources It has become instead a place supporting both intentional and non intentional learning Intentional formal learning often leads to certification whereas informal learning is unstructured and takes place as part of daily work related or leisure activities *Cases on Formal and Informal E Learning Environments Opportunities and Practices* brings together cases outlining the practical aspect of formal non formal and informal online learning This book introduces conceptual aspects of these types of learning knowledge base new learning paradigms policy implications evaluation and concerns design and development of online learning Gender, Sport and Development in Africa Jimoh Shehu, 2010 Drawing on various theories and cross cultural data the contributors to this volume highlight the various ways in which sport norms policies practices and representations pervasively interface with gender and other socially constructed categories of difference They argue that sport is not only a site of competition and physical recreation but also a crossroad where features of modern society such as hegemony identities democracy technology development and master statuses intertwine and bifurcate As they point out in many ways sport production reproduction distribution and consumption are relational spatial and contextual and therefore do not pay off for men women and other social groups equally The authors draw attention to the structure and scope of efforts needed to transform the exclusionary and gendered nature of sport processes to make them adequate to the task of engendering Africa s development *More Than Sport: Soft Power and Potemkinism in the 2018 Men's Football World Cup in Russia* Sven Daniel Wolfe, 2021-01-07 This book explores the 2018 Men s Football World Cup in Russia through a comparison of the host cities of Ekaterinburg and Volgograd two major but peripheral cities little discussed outside of Russia It unpacks the World Cup at multiple scales of analysis from global political

economic processes Russian national state spatial strategies uneven municipal developments the creation and distribution of soft power narratives to the domestic audience and varieties of adoption or refusal of those narratives among host city residents In so doing the book offers a light and revisable framework for understanding mega events regardless of national context Sven Daniel Wolfe is junior lecturer at the University of Lausanne He studies mega events urban development and the cultures of protest and resistance

Women's Sport in Africa John Bale,Michelle Sikes,2016-04-14 In recent decades Africa has emerged as a sporting giant The African sporting phenomenon has been addressed in the popular press and it has also attracted scholarly interest however this interest is almost entirely focussed on men Yet women s participation in recreational and elite sport is worthy of exploration and research This path breaking collection of essays provides an introduction to a variety of dimensions of women s participation in African sports Several key concepts are addressed in the book women and media women and sport migration sport and empowerment sporting and social development women s sport and postcolonial Africa and professional sport and economic development This collection authored by established scholars will attract readership from students from Sports Studies to African Studies and from undergraduate students to university teachers This book was published as a special issue of Sport in Society

**The Soft Power of Non-Western Small States** Sarina Theys,2024-09-12 This book critically engages with the concepts of small states and soft power and advances a new approach to defining small states a new conceptualisation of soft power and a method for empirically analysing the exercise of soft power It revisits the concepts of small states and soft power with a focus on Bhutan and Qatar and their approach to exercise soft power to achieve their foreign policy goals Building on two main perspectives to define small states the objective approach and the subjective perspective this book offers an intersubjective approach to define states as small The intersubjective approach requires a shared understanding between states that a certain state is small The book further highlights the importance of deconstructing the meaning of size and to separate the notion of size from the concept of power because size is not always indicative of power It argues that although small states tend to have fewer material resources than large states they nevertheless can have influence through the exercise of soft power Soft power is in this book defined as the ability of an actor to convince another actor that something is true Convincing deals with the beliefs of an actor and is a mental decision rather than a physical action This book argues that the exercise of soft power can be analysed through examining the development projection and reception of identities The findings of this book show that Bhutan was more successful than Qatar in exercising soft power and explains the reasons for this variation Aimed at a multidisciplinary audience this book will be of particular interest to practitioners scholars and students of International Relations Political
