H. Cleland,2014-10-06 Pieter Coecke van Aelst 1502 1550 was renowned throughout Renaissance Europe as a draftsman painter and publisher of architectural treatises The magnificent tapestries he designed were acquired by the wealthiest clients of the day up to and including rulers such as Emperor Charles V King Francis I of France King Henry VIII of England and Grand Duke Cosimo I de Medici of Tuscany At the same time Coecke was remarkable not only for the complexity and unparalleled quality of his tapestries but also for his fluency in various media this lavishly illustrated volume examines the full range of his work from tapestry and stained glass window designs to panel paintings prints drawings and architectural treatises Though only forty eight when he died Coecke was one of the greatest Netherlandish artists of the sixteenth century His paintings and drawings initially wrought in the style of the Antwerp Mannerists evolved through his enthusiastic response to Italian Renaissance design and influenced generations of artists in his wake This comprehensive study explores Coecke s stylistic development as well as his substantial contribution to the body of great Renaissance art in Flanders Featuring twenty monumental tapestries along with many of their cartoons and preparatory sketches plus seven paintings additional drawings and printed matter many of them newly photographed for this volume *Grand Design* provides a thorough reappraisal of Coecke s work amply justifying the high regard in which Coecke s work was held and its wide dissemination long after his death *Laika's Window* Kurt Caswell,2018-09-18 Laika began her life as a stray dog on the streets of Moscow and died in 1957 aboard the Soviet satellite Sputnik II Initially the USSR reported that Laika the first animal to orbit the earth had survived in space for seven days providing valuable data that would make future manned space flight possible People believed that Laika died a painless death as her oxygen ran out Only in recent decades has the real story become public Laika died after only a few hours in orbit when her capsule overheated Laika s Window positions Laika as a long overdue hero for leading the way to human space exploration Kurt Caswell examines Laika s life and death and the

speculation surrounding both Profiling the scientists behind Sputnik II he studies the political climate driven by the Cold War and the Space Race that expedited the satellite s development Through this intimate portrait of Laika we begin to understand what the dog experienced in the days and hours before the launch what she likely experienced during her last moments and what her flight means to history and to humanity While a few of the other space dog flights rival Laika s in endurance and technological advancements Caswell argues that Laika s flight serves as a tipping point in space exploration beyond which the dream of exploring nearby and distant planets opened into a kind of fever from which humanity has never recovered Examining the depth of human empathy what we are willing to risk and sacrifice in the name of scientific achievement and our exploration of the cosmos and how politics and marketing can influence it Laika s Windowis also about our search to overcome loneliness and the role animals play in our drive to look far beyond the earth for answers *New Pictorial and Practical Guide to London ...* Ward, Lock & Co,Ward, Lock and Company, ltd,1894
