

MODULE 5

CONSUMER PROTECTION

General introduction

Information technology has given birth to technologies like electronic data interchange and electronic currency transfer, which have grown into information technology-enabled commercial activities known as e-commerce with the help of the internet. The buying and selling of goods and services over electronic networks such as the internet and other computer networks are known as e-commerce. Electronic commerce makes use of a wide range of technologies, including electronic money transfers, supply chain management, Internet marketing, online transaction processing, electronic data interchange (EDI), inventory management systems, and automated data collection systems.

As the e-commerce transactions and persons who engage it increases day by day, the chance of exploitation also increases. Here comes the relevance of consumer protection in e-commerce. If the issue of consumer protection is not effectively addressed with an adequate mechanism, it may have a negative impact on fair competition and the free flow of accurate information in the marketplace, as well as lead to consumer fraud and deceit in their e-commerce transactions.

History

The need to ensure basic rights to consumer welfare has long been recognized by legislations world over and so with India. On lines with the United Nations Guidelines on Consumer Protection (UNGCP), India enacted the Consumer Protection Act in 1986 to protect consumer interests. The popularity of the enactment lies in its avowed objectives of identifying consumer rights and providing cost-effective and speedy redressal. Though there are no specific laws governing e-commerce in India, in terms of Business-to-Consumer E-commerce, the existing provisions of Consumer Protection Act, 1986, is being applied to disputes in online transactions mostly under the provisions of 'Deficiency in Service' under Section 2(1)(g) of the Consumer Protection Act, 1986 or 'Unfair Trade Practices' under Section 2(1)(r) of the Consumer Protection Act, 1986. This was replaced with 2019 act and e-commerce rules in consumer protection to encompass the protection of e-commerce consumers.

Eisenstein,1982 Vulnerable Consumers and the Law Christine Riefa,Severine Saintier,2020-10-27 This book charts the difficulties encountered by vulnerable consumers in their access to justice through the contributions of prominent authors academic practitioners and consultants in the field of consumer law and access to justice It demonstrates that despite the development of ADR access to justice is still severely lacking for the vulnerable consumer The book highlights that a broad understanding of access to justice which encompasses good regulation and its public enforcement is an essential ingredient alongside access to the mechanisms of traditional private justice courts and ADR to protect the vulnerable consumer Indeed many of the difficulties are linked to normative obstacles and lack of access to justice is primarily a vulnerability in itself that can exacerbate existing ones In addition because it may contribute to pushing already vulnerable consumers into social exclusion it is not simply about economic justice but also about social justice The book shows that lack of access to justice is not irreversible nor is it necessarily linked to consumer apathy New technologies could provide solutions The book concludes with a plea for developing inclusive justice systems with more emphasis on public enforcement alongside effective courts systems to offer the vulnerable with adequate means to defend themselves This book will be suitable for both students and practitioners and all those with an interest in the justice system
