Case Absorption and WH-Agreement A. Watanabe, 1996-09-30 The study of A movement is receiving a lot of attention in recent research under the stimulus of the Minimalist Program This book provides a principled account of case absorption that gives a precise characterization of the similarities between causative and passive for the first time It further shows that raising and ECM also involve case absorption demonstrating the central role that case absorption places in the theory of A movement Case Absorption and WH Agreement is also the first systematic attempt to put a tight constraint on WH agreement surveying a wide range of phenomena discussed in the literature to show that despite the superficial morpho syntactic multiplicity of its realization WH agreement is highly restricted because it arises through the interaction between case theory and A bar processes This book targets researchers who are interested in the latest developments in the principles and parameters approach as well as those who want to understand central issues in the theory of A movement **Questions and Answers in General Topology**, 2003 The Syntax of Mauritian Creole Anand

Syea,2013-01-01 A detailed study of different aspects of the syntax of Mauritian creole within a Chomksyan theoretical framework *UCLA Working Papers in Psycholinguistics* ,1992 **Prominence and Locality in Grammar** Jianhua Hu,2019-06-06 This book challenges the current consensus on the analysis of wh questions and reflexives from the perspective of the syntax semantics interface An integrated approach incorporating analyses of the interaction between different levels of linguistic knowledge is proposed It argues that the derivation and interpretation of wh questions and reflexives are not purely syntactic in nature but are regulated by principles operating at the syntax semantics interface Two general principles underlying our knowledge of language and cognition are proposed in this work One is the Principle of Locality and the other is the Principle of Prominence It shows that although wh quantification and reflexivization belong to two different domains of study in generative grammar their derivation and interpretation are basically constrained by the complex interaction between prominence and locality in grammar The first part of the book discusses how wh questions are formed and interpreted in Chinese and English and shows that the formation and interpretation of wh questions are constrained by the interaction between prominence and locality It is shown that in wh interpretation prominence is used to define the set generators so as to licence other wh words in the pair list reading in multiple wh questions It also discusses wh island effects in English and Chinese and unlike previous claims made in the literature cf Huang 1982a 1982b it argues that the so called wh island effects in English are also observed in Chinese The second part of the book investigates the role that prominence and locality play in reflexive binding It is shown that in reflexive binding the binding domain of the reflexive is defined by prominence It proposes a unified account for both the noncontrastive compound reflexive and the bare reflexive in Chinese and shows that they are constrained by the same reflexive binding condition proposed in this work though they employ different definitions of the most prominent NPs to determine their binding domains Prominence and Locality in Grammar The Syntax and Semantics of Wh Quesitons and Reflexives is an important theoretical contribution to the syntax semantics interface studies and can serve as a valuable text for graduate students and scholars in the field of Chinese linguistics and cognitive science **Wh-questions** Riet Vos,1994 **MIT Working Papers in Linguistics** ,2003 Reports and Minutes of Evidence ...
