

**Case 1: How the value is measured, and how it is used
 Definition
 DDCI printed in blue**

Definition

- 1. Domestic production product value for resident and non-resident
- 2. Domestic consumption (household, non-household, government and exports) plus value added (household, government)

Example

Household consumption value (household) + government consumption value (government) + exports value (household and government) + value added (household and government) = DDCI
 (household) (government) (household and government) (household and government) (household and government) (household and government)

Value added (household and government) + exports value (household and government) = DDCI

Question

- 1. What is Domestic Value Added (DVA)? How is it measured? (Household and government consumption value for the household and government, and exports value for household and government)
- 2. What are the methods (input and output) of measuring DVA?
- 3. In 2018, the value added (DVA) of the household and government consumption value (DVA) is 1000. How is this value measured? (Household and government consumption value for the household and government) (Household and government consumption value for the household and government) (Household and government consumption value for the household and government) (Household and government consumption value for the household and government)
- 4. Government consumption value (DVA): what is the amount for the first time? (Household and government consumption value for the household and government)
- 5. In 2018, the value added (DVA) of the household and government consumption value (DVA) is 1000. How is this value measured? (Household and government consumption value for the household and government) (Household and government consumption value for the household and government) (Household and government consumption value for the household and government) (Household and government consumption value for the household and government)

- 6. How is the value added (DVA) of the household and government consumption value (DVA) measured? (Household and government consumption value for the household and government) (Household and government consumption value for the household and government) (Household and government consumption value for the household and government) (Household and government consumption value for the household and government)
