

Booking & Pricing

Fare quote display

You can retrieve all fare rules and base fare costs by doing a fare display entry.

FD01JANLONDXXB/EK:P Display base fares for given date/routing/airline

In addition, there are some particular entries that could be used to retrieve fares by passenger type or type of fare as required.

FD01JANLONDXXB/EK:P*ITX Display base fares based on passenger types eg *ITX; *ADT

FDLONDXXB01JAN-PRI-IT/EK:P*ITX Display base fares based on type of fare eg -PRI-IT; -PRI-SO

Passenger Types

Below are the typical passenger type codes but please note they can vary by airline.

Inclusive Tour: ITX = adult; Ccx = child & teens* (*12-15 yrs old) (where xx is the age eg. 109) ITF = infant without seat

Seat Only: ADT = adult; Ccx = child & teens* (*12-15 yrs old) (where xx is the age eg. C09); INF = infant without seat

Quoting an itinerary

Once you have held flights, you can price using negotiated fares with the following entries (substitute with the correct passenger type code where appropriate).

FQBB+-AB*ITX:P/TA73F Best buy pricing for Inclusive Tour adult (rebooks to the cheapest in cabin)

FQBB+-AB*ITX:P-IT Best buy pricing by type of fare (eg. P-IT; P-SO)

FQ*ITX:P/TA73F Pricing Inclusive Tour adult fare as booked.

FQ*ITX:P-IT Pricing Inclusive Tour adult fare as booked (eg. P-IT; P-SO)

For children, suffix with **ACCITX** to indicate that they are accompanied by an inclusive tour adult.

Account code: We have also added an account code **AV8**, to make sure you are quoting fares from Aviate. Simply add to the pricing entry eg. **FQ*ITX-AV8:P/TA73F**

Additional entries:

.T01JAN15 Price to a specific date (eg. booked date).

.H01JAN15 Price fare to a specific date (eg. booked date) and all taxes from current date.

Ticketing Process

When you are ready to issue tickets, store the fare that you expect the booking to be ticketed at, and email ticketing@aviateworld.com to request ticket issuance citing the payment method and inform your GDS in the subject line. For urgent ticketing requests please call during office opening hours.

Queuing a booking: QEB/GIH/31

** Please remember not to include "/y" at the end of the above entry as we will be unable to queue back to you.

Please note, if the booking has been split, we will need to check the split PNR before issuing the tickets, please be aware bookings will not be ticketed unless we have access to the full history including split PNRs.

Once you have transferred the ownership of the booking, Aviate will assume that all sectors will be issue under one ticket. If you required multiples tickets under one PNR, our services fees will be charged per issued ticket. We can issue multiple tickets upon request, however if you wish to ticket some of the sectors in your GDS, these sectors must be issued in advance before queuing the bookings over, so Aviate can issue the remaining sectors from your PNR, in case the other sectors haven't been issued. Aviate will not accept your bookings and your PNR will automatically be queued back to you.

Aviate will verify the stored fare and, once payment is taken, issue the tickets. If your booking has missed the ticketing time limit, or does not have a valid stored fare, we will be in touch for clarification. We can only issue tickets within office opening hours, so please take this into consideration when transferring your booking.

Once the tickets are issued, it will be grabbed onto our back-office system and queue back to you immediately. It might take longer if we find any problems grabbing onto our system, however, once the problem is rectified, it will be queued back as normal.

Galileo User Guide

Andrew Perry

Galileo User Guide:

The Cassini-Huygens Mission C.T. Russell,2013-03-14 The exploration of the planets is the modern counterpart to the exploration voyages of old To reach the new world Columbus had to secure funding from Queen Isabella outfit his three ships and set sail on a long journey To explore the American Pacific Northwest Lewis and Clark had a similar task of obtaining funding purchasing equipment and going to points unknown even though their path was across land and not sea Today our journey is through space rather than across land or sea but we still travel with ships now spaceworthy craft rather than seaworthy Our spacecraft are smaller than the ships of yore crammed with electronics rather than provisions because man cannot go along on these journeys We now rely on robots to be our eyes and ears at these distant worlds Nevertheless some aspects of exploration have not changed over the centuries People are still fascinated by these unknown worlds and desire to explore them and the process of obtaining the large sums of public moneys to finance these journeys still requires much pleading with authorities

Deep Space Communications Jim Taylor,2016-08-16 DEEP SPACE COMMUNICATIONS A COLLECTION OF SOME OF THE JET PROPULSION LABORATORY'S SPACE MISSIONS SELECTED TO REPRESENT THE PLANETARY COMMUNICATIONS DESIGNS FOR A PROGRESSION OF VARIOUS TYPES OF MISSIONS The text uses a case study approach to show the communications link performance resulting from the planetary communications design developed by the Jet Propulsion Laboratory JPL This is accomplished through the description of the design and performance of six representative planetary missions These six cases illustrate progression through time of the communications system's capabilities and performance from 1970s technology to the most recent missions The six missions discussed in this book span the Voyager flybys in the 1970s Galileo for orbiters in the 1980s Deep Space 1 for the 1990s Mars Reconnaissance Orbiter MRO for planetary orbiters Mars Exploration Rover MER for planetary rovers in the 2000s and the MSL rover in the 2010s Deep Space Communications Provides an overview of the Deep Space Network and its capabilities Examines case studies to illustrate the progression of system design and performance from mission to mission and provides a broad overview of the mission systems described Discusses actual flight mission telecommunications performance of each system Deep Space Communications serves as a reference for scientists and engineers interested in communications systems for deep space telecommunications link analysis and design control

Galileo User's Manual Robotron Pty. Ltd,1998 *Vistas in Astronomy*,1995 Vol 9 is a record of the first joint symposium of the International Astronomical Union and the Union internationale d'histoire et de philosophie des sciences held at the University of Hamburg Aug 22-24 1964 *Reference Guide to World Literature: Works, index* Sara Pendergast, Tom Pendergast,2003 Covers writers from the ancient Greeks to 20th century authors Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature Each author entry provides a detailed overview of the writer's life and works Work entries cover a particular piece of world literature in detail Global

Navigation Satellite Systems and Their Applications Scott Madry, 2024-10-28 Professor Madry one of the world's leading experts in the field of the practical applications of satellites and space technologies provides in a condensed form a quick yet comprehensive overview of all aspects of satellite navigation. This new edition concisely addresses the latest breakthrough technologies, the various national systems, the many applications, the regulatory issues, and the strategic implications of satellite navigation systems. The future directions of autonomous aircraft and the role drones play in satellite navigation networks are also evaluated. Moreover, the industry's strengths and weaknesses are discussed, as well as reviews of all the various national systems now being deployed. The motivation behind the proliferation of these systems in this book evaluates the overall societal and ethical issues of these invisible yet pervasive parts of our modern digital world. Reference Manual on Scientific Evidence National Research Council, Federal Judicial Center, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on the Development of the Third Edition of the Reference Manual on Scientific Evidence, 2011-10-26 The Reference Manual on Scientific Evidence Third Edition assists judges in managing cases involving complex scientific and technical evidence by describing the basic tenets of key scientific fields from which legal evidence is typically derived and by providing examples of cases in which that evidence has been used. First published in 1994 by the Federal Judicial Center, the Reference Manual on Scientific Evidence has been relied upon in the legal and academic communities and is often cited by various courts and others. Judges faced with disputes over the admissibility of scientific and technical evidence refer to the manual to help them better understand and evaluate the relevance, reliability, and usefulness of the evidence being proffered. The manual is not intended to tell judges what is good science and what is not. Instead, it serves to help judges identify issues on which experts are likely to differ and to guide the inquiry of the court in seeking an informed resolution of the conflict. The core of the manual consists of a series of chapters, reference guides on various scientific topics, each authored by an expert in that field. The topics have been chosen by an oversight committee because of their complexity and frequency in litigation. Each chapter is intended to provide a general overview of the topic in lay terms, identifying issues that will be useful to judges and others in the legal profession. They are written for a non-technical audience and are not intended as exhaustive presentations of the topic. Rather, the chapters seek to provide judges with the basic information in an area of science to allow them to have an informed conversation with the experts and attorneys.

Reference Manual on Scientific Evidence, 2000 **Parallel Computing: Technology Trends** Ian Foster, Ludek Kucera, Wolfgang E. Nagel, Frans Peters, 2020-03-15 The year 2019 marked four decades of cluster computing, a history that began in 1979 when the first cluster systems using Components Off The Shelf (COTS) became operational. This achievement resulted in a rapidly growing interest in affordable parallel computing for solving compute-intensive and large-scale problems. It also directly led to the founding of the ParCo conference series. Starting in 1983, the International Conference on Parallel Computing (ParCo) has long been a leading venue for discussions of important developments, applications, and future trends in

cluster computing parallel computing and high performance computing ParCo2019 held in Prague Czech Republic from 10-13 September 2019 was no exception Its papers invited talks and specialized mini symposia addressed cutting edge topics in computer architectures programming methods for specialized devices such as field programmable gate arrays FPGAs and graphical processing units GPUs innovative applications of parallel computers approaches to reproducibility in parallel computations and other relevant areas This book presents the proceedings of ParCo2019 with the goal of making the many fascinating topics discussed at the meeting accessible to a broader audience The proceedings contains 57 contributions in total all of which have been peer reviewed after their presentation These papers give a wide ranging overview of the current status of research developments and applications in parallel computing
